

## **Release of Exam Scores: (updated 08/11/06)**

**NOTE:** Periodically, the Board of Pharmacy performs quality assurance assessments to ensure the appropriateness of the California Pharmacist Jurisprudence Examination (CPJE). The board will initiate such a study on August 14, 2006. To assure the thoroughness of this assessment, approximately 400 individuals will be needed for participation. Once enough candidates have taken the CPJE, release of examination scores should resume on a weekly basis, usually within 14 days after a candidate takes the examination.

**Based on the number of candidates who took the CPJE last year during this same period, the anticipated results release date will be at the end of September 2006. In order to complete the quality assurance assessment, 400 candidates are required to take the CPJE.**

### **Routine Release of Scores:**

The board attempts to release examination scores to candidates as quickly as possible, and mailings are done weekly. Once each week the board mails to candidates all the CPJE and NAPLEX scores it has received from Expor Assessment (CPJE) and the National Association of Boards of Pharmacy (NAPLEX).

For the CPJE: The board attempts to release CPJE scores four weeks after the week the CPJE was taken. If the scores are ready for release sooner, the board mails the score report.

For the NAPLEX: Typically the board mails candidates their scores two weeks after the week that they have taken the NAPLEX exam.
